# LITHUANIAN SCIENTIFIC JOURNALS

2011

---

The Association of Lithuanian Serials

Science begins with a scholar's attempt to capture thoughts on paper. Science pioneers manually created and copied manuscripts. The era of printed word gave rise to the first scholarly publications. By coincidence, both English and French scholars issued their first ever-scientific journals – which also happened to be the first publications of this kind in the history of the world – in 1665.

Soon after, scientific journals started specializing, their numbers grew by a geometric progression and papers publications were replaced with their electronic versions. Only one thing has remained unchanged – the mission of scientific journals to inform about the science news, disseminate scientific knowledge as well as exchange, develop and discuss ideas. An article in a scientific journal anchors the authorship of a previously unknown scientific information.

There is yet another important purpose of an article in a scientific journal. First articles train a young scholar to compose a scientific text: the future PhD thesis and – later – the more mature piece of work, i.e. a monograph.

The number of journals published in a country and their acknowledgement on the global scale as well as the number of articles issued in national and global scientific journals and their citation levels define the state of science within that country.

During the first few years of the Restored Independence, Lithuania was unable to take pride in either the numbers of scientific journals published, or in their dissemination on a global scale, or quantities of articles published in foreign scientific journals. However, over the course of twenty years, extensive efforts of Lithuanian scientists supported by state institutions bore abundant fruit. As the result, nearly 150 scientific journals are published in Lithuania today and a significant number of these publications are acknowledged in the world of science. 31 Lithuanian scientific journals are referenced in the Thomson Reuters Web of Science, 20 of which have the citation index Impact Factor. Additionally, 36 scientific journals of Lithuania are indexed by Scopus, 28 of which have the SJR (SCImago Journal Rank); six journals were attributed to the top Q1 category, meanwhile eight publications – to the Q2, seven – to the Q3, and seven more – to the Q4 category.

The first Catalogue of Lithuanian Scientific Journals introduces the national and global academic society to 78 scientific journals grouped into science fields and areas. We believe that the Catalogue will contribute to dissemination of information about the Lithuanian scientific journals in our country and the world as well as encourage publishers to improve the quality of produced publications.

All journals introduced in the Catalogue of Lithuanian Scientific Journals are peer-reviewed. Information on journals was provided by their editorial boards. The Abstracts&Indexing section alone was supplemented with information from the Ulrich's (Ulrich's International Periodicals Directory) database.

*Note.* The CrossCheck marking means that an editorial board of a journal employs the plagiarism prevention service offered by CrossRef.

#### **Acknowledgements**

The Council of the Association of Lithuanian Serials would like to express its gratitude to editorial boards of all journals that partook in this initiative for the especially smooth collaboration.

Online ISSN	–
Volume	2011(16)
Frequency	Annual
Language	LT / EN / DE / RU / LV

<http://su.lt/ml/filologija>

**Publisher**  
Siauliai University

### Journal Scope

The aim of the publication is to stimulate research in the modern branches of linguistics and to disseminate the materials of the Lithuanian language in the sphere of international research. Papers corresponding to the two fields of research of the Faculty of Humanities – ethnolinguistics and poetics – are published in the journal.

The Editorial Board of "Philology" is first of all interested in the following issues: concept expression, conceptual metaphors, lexical nomination, text pragmatics, and semantics of the text of fiction. Priority is given to the articles written on the basis of modern methodologies, first of all, those using the methods of Cognitive Linguistics. Some papers can be dealing with general theoretical issues, while others may reflect the outcomes of the concrete philological research.

### Publisher

Vilnius Pedagogical University

### Journal Scope

The journal *Man and the Word* consists of 4 volumes: No.1 *Didactic Linguistics*, No. 2 *Science of Literature*, No. 3 *Foreign Languages*, No. 4 *Philosophy*. It is published by Vilnius Pedagogical University. The journal endeavours to publish significant research articles in the field of humanities and social sciences on philology, philosophy and education. All four volumes of the journal have been published each year since 1999.

The articles published in the edition on research works *Didactic Linguistics* deal with problems of the Lithuanian language, its history, dialects, contacts of languages, connection between the language and culture and other linguistic issues. Many of the articles analyze underlying problems of higher education establishments. Didactic articles form a separate chapter.

Volume No. 2 of the journal *Man and the Word* is called *Literary Criticism*. It covers a wide range of scientific interests. Most of the articles are devoted to literature analysis. Other articles discuss problems on culture, literature links with teaching process. The volume includes reviews on modern literature.

Volume No. 3, which is called *Foreign Languages*, consists of articles dealing with the questions on modern aspects of different languages: traditional and functional grammar, language typology, semantics, pragmatics, text linguistics, translation and history of languages.

Volume No. 4 is dedicated to philosophy. Articles, translations, appreciations and reviews are published in this part. Most of the articles focus on phenomenology and hermeneutic views. Also it includes articles on philosophy of history. Considerable attention is devoted to the analysis of pedagogical philosophy and education science.

### Publisher

Lithuanian University of Agriculture

### Partners

Estonian University of Life Sciences; Latvia University of Agriculture; University of Warmia and Mazury in Olsztyn (Poland)

### Journal Scope

The journal seeks to highlight the best practice and research of developed and rapidly growing countries of the world, especially in the Baltic region. Editorial Board hopes for scientific articles from the researchers of all countries of the world who can enrich economics and management sciences in the area of rural development.

The main topics of the journal are following:

- Rural Development, including Agricultural Economics, Methodology;
- Rural Development Policy and its Implementation;
- Agricultural Competitiveness;
- Economics of Resources and its Management;
- Strategic Management of Rural Organizations;
- Finance, Accounting, Statistics and Analysis of Rural Development;
- Rural Sociology;
- Rural Education and Studying;
- Development of Information and Knowledge based Society in Rural Areas.

In addition to scientific articles in this journal is published the following information:

- Informative surveys on PhD papers, scientific conferences and other research activities;
- Summaries of scientific monographs.

Print ISSN 1392-0340

Online ISSN –

Volume 101

Frequency Quarterly

Language LT / EN / RU / DE

<http://www.biblioteka.vpu.lt/pedagogika>

### Publisher

Vilnius Pedagogical University

### Journal Scope

The *significance* of the publication is conditioned by the *continuity of fundamental ideas of education science and practice*, which creates conditions for their comprehensive integration based on the latest researches of scientists and practitioners as well as on scientific searches of Master and Doctoral students. The *variety of themes*, which embraces all the spheres of pedagogy, andragogy and education management, also contributes to its significance. It should be pointed out that papers by foreign contributors are also published, which expands the space of the pedagogical thought by new experiences and insights. The *exceptionality* of this publication is reflected through an expeditious response to the key aspects relevant for educational practice, which include all the spheres of education, and especially through development of didactic aspects, which naturally embody interdisciplinary potential, as well as through linking of teacher training and school practice.

International Federation for Information Processing (IFIP)

### Journal Scope

"Olympiads in Informatics" is a refereed scholarly journal that provides an international forum for presenting research and developments in the specific scope of teaching and learning informatics through olympiads and other competitions. The journal is focused on the research and practice of professionals who are working in the field of teaching and learning informatics to talented student. "Olympiads in Informatics" is published annually (in summer). Only original high-quality scientific papers are accepted. All submitted papers are peer reviewed.

The journal is closely connected to the scientific conference annually organized during the International Olympiad in Informatics (IOI). Authors are requested to present their papers during the IOI conference.

### Journal Scope

"Informatics in Education" is a peer-reviewed journal that provides an international forum for presenting the latest original research results and developments in the fields of informatics and education. It is a satellite journal of the international journal "Informatica" (<http://www.mii.lt/informatica/>) with a specific focus on education. The journal will promote making contacts among researchers in informatics and practical educators both in the Baltic countries and that in Eastern and Central Europe where a distinctive methodology of teaching and learning informatics has been developed and is of great interest. "Informatics in Education" is published biannually (in April and October)

Online ISSN –

Volume 16

Frequency Quarterly

Language EN

<http://www.lana.lt/journal>

### Publisher

Institute of Mathematics and Informatics of Vilnius University

### Partners

Lithuanian Association of Nonlinear Analysts; Lithuanian Academy of Sciences

### Journal Scope

The scope of the journal is to provide a multidisciplinary forum for scientists, researchers and engineers involved in research and design of nonlinear processes and phenomena, including the nonlinear modelling of phenomena of the nature. The journal accepts contributions on nonlinear phenomena and processes in any field of science and technology.

The aims of the journal are:

- to provide a presentation of theoretical results and applications;
- to cover research results of multidisciplinary interest;
- to provide fast publishing of quality papers by extensive work of editors and referees;
- to provide an early access to the information by presenting the complete papers on Internet.

### Publisher

Institute of Mathematics and Informatics of Vilnius University

### Partner

Lithuanian Academy of Sciences

### Journal Scope

"Informatica" publishes papers on mathematical simulation and optimization, recognition and control, automation systems and elements, software engineering, multimedia technologies, data mining, and provides a multidisciplinary forum for scientists and engineers involved in research and design including experts who implement and manage applications.

The aims are: to provide a balanced representation of theory and applications, to cover the research results of both the East and the West equally, to provide fast publication of quality papers by the efficient work of referees, to provide an early access to the information by presenting the PDF files of the complete papers on the Internet.

All these aims taken together explain the unique quality of this journal and how it is distinguished from other journals in the rapidly expanding field.

<http://statisticsjournal.lt>

### Publisher

Lithuanian Statistical Association

### Partner

The Department of Statistics (Statistics Lithuania)

### Journal Scope

The aims of the journal are:

- to promote and extend statistical education and application of statistical methods in all kinds of theoretical and applied sciences;
- to provide a forum for statisticians of Lithuania and other countries working in various fields of research to exchange their ideas and achievements, extending in this way possibilities of statistical applications.

The journal presents papers on

- the fundamental research in statistics, on inputs of statisticians into the theory of statistics and methodology of its applications;
- the application of statistics in economy, physical, technological bio-medical and social sciences through the case studies;
- the application of statistical methods in official statistics enriching them with the experience of other countries;
- the investigation of the history of statistics, information on important statistical events papers, relevant to the occasion important to the statistical science.

All papers are reviewed by the anonymous referees.

### Journal Scope

"Engineering Structures and Technologies" is a peer-reviewed journal. The journal is aimed to present new results of research, and recommendations on the introduction of science and technical equipment, in order to improve sustainable building.

The topics include:

- the properties of building materials;
- the mechanics, creation, investigation and design of building structures;
- geotechnics;
- loads and actions;
- technology of structures production and building process, influence of technology on quality and economical analysis;
- analysis of structures behavior in fire, estimation and renovation of fire damages;
- estimation and repair of building structure state in exploitation;
- durability of building structures and materials;
- creation and correction of Euro codes and national parameters;
- another information on the topic of journal.

### Publishers

Taylor & Francis Group  
Vilnius Gediminas Technical University

### Partners

Lithuanian Academy of Sciences, International Academy of Ecological and Life Protection Sciences which is an associate member of the Public Information Department of United Nations

### Journal Scope

The Journal is an international medium for the publication of original research on the environment with emphasis on changes caused by human activities. The scope is multidisciplinary and international and the subjects covered include atmosphere and air pollution control and pollution mitigation technologies, water pollution control and pollution mitigation technologies, soil pollution control and pollution mitigation technologies, entrails of the earth, their protection, waste management, zero-waste technologies, environmental expertise, control over physical and technological environmental impacts and reduction technologies, nuclear hydro physics and radioactive pollution, modelling environmental processes, environmental monitoring, landscape protection, environmental ethics, environmental law and management, quality of indoor and outdoor environment. Besides, it publishes short reports and observations, reviews and bibliography, reports on conferences and workshops.

### Abstracts & Indexing

Thomson Reuters: Science Citation Index Expanded, Web of Science; Elsevier Bibliographic Databases: SCOPUS, Compendex, The Engineering Index Monthly; ICONDA (The International CONstruction DAtabase); CSA (Cambridge Scientific Abstracts): Advanced Polymers Abstracts, Aerospace & High Technology Database, Aluminum Industry Abstracts, CSA Civil Engineering Abstracts, CSA Engineering Research Database, CSA High Technology Research Database with Aerospace, CSA Materials Research Database with METADEX, CSA Mechanical & Communications Engineering Abstracts, CSA Technology Research Database, Ceramic Abstracts/World Ceramic Abstracts, Composites Industry Abstracts, Computer and Information Systems Abstracts Journal, Corrosion Abstracts, Earthquake Engineering Abstracts, Electronics and Communications Abstracts Journal, Engineered Materials Abstracts, Environmental Engineering Abstracts, Environmental Sciences and Pollution Management, International Aerospace Abstracts, Materials Business File, METADEX, Solid State and Superconductivity Abstracts; Gale®: Academic OneFile, Business & Company ProFile ASAP, Business & Company Resource Center, Business ASAP, Business ASAP International, InfoTrac Custom; VINITI RAN; ProQuest: Ulrich's, Summon™; EBSCOhost: Current Abstracts, Environment Complete, Environment Index, Garden, Landscape & Horticulture Index, GreenFILE, TOC Premier; IndexCopernicus

### Publisher

Kaunas University of Technology

### Partners

Vytautas Magnus University; Lithuanian Agricultural University; Klaipėda University; Vilnius University; Šiauliai University; Lithuanian Energy Institute; Engineering Ecology Association

### Journal Scope

The journal "Environmental Research, Engineering and Management" is designed to serve as a roadmap for understanding the issues and debates in the overlapping fields of environment and development. Tremendous strides have been made in elevating the issues of the environment and sustainable development in public and governmental consciousness, in research and developing institutions for addressing these issues, and in implementing practices and policy options.

The Journal provides advanced original papers on specific environmental and sustainability issues, such as: air and water pollution, impact to environmental and human health assessment, sustainable production, and consumption, life cycle management.

### Abstracts & Indexing

CABI: Abstracts on Hygiene and Communicable Diseases, Agricultural Engineering Abstracts, Animal Science Database, Biofuels Abstracts, CAB Abstracts, Crop Physiology Abstracts, Crop Science Database, Dairy Science Abstracts, Environmental Impact, Field Crop Abstracts, Forest Products Abstracts, Forest Science Database, Forestry Abstracts, Global Health, Grasslands and Forage Abstracts, Horticultural Science Database, Irrigation and Drainage Abstracts, Leisure, Recreation and Tourism Abstracts, Leisure Tourism Database, Nutrition Abstracts and Reviews Series A: Human and Experimental, Nutrition and Food Sciences Database, Organic Research Database, Ornamental Horticulture, Postharvest News and Information, Review of Aromatic and Medicinal Plants, Seed Abstracts, Soil Science Database, Soils and Fertilizers, Sugar Industry Abstracts, TropAg & Rural, Veterinary Science Database, Weed Abstracts, Wheat, Barley and Triticale Abstracts, World Agricultural Economics and Rural Sociology Abstracts; CSA (Cambridge Scientific Abstracts): Aqualine, Aqualine Abstracts, CSA Sustainability Science Abstracts, Environmental Sciences and Pollution Management, Pollution Abstracts; INSPEC; VINITI RAN; EBSCOhost: Current Abstracts, Environment Complete, Environment Index, GreenFILE, TOC Premier; Ulrich's; DOAJ (Directory of Open Access Journals)

Geodezija ir kartografija /  
Geodesy and Cartography

Energetika /  
Power Engineering

**Editor-in-Chief**  
Prof. Dr Habil. Jurgis Vilemas

Print ISSN	0235-7208
Online ISSN	–
Volume	57
Frequency	Quarterly
Language	LT / EN / RU

<http://www.lmaleidykla.lt/energetika>

**Publisher**

Lithuanian Academy of Sciences

**Partner**

Lithuanian Energy Institute

**Journal Scope**

Is publishes important scientific, practical application, review and problems papers in this fields:

- economics of energetics;
- modelling and management of energy systems;
- nuclear energetics and safety;
- radioactive waste disposal;
- metrology in energetics;
- renewable power sources;
- thermal physics, combustion processes;
- material studies and technology;
- hydroenergetics;
- plasma technologies.

### Publisher

Kaunas University of Technology

### Partners

Vilnius University; University College London; Peterburg State University of Transport; Norwegian University of Science and Technology; Technical University of Denmark

### Journal Scope

The journal is publishing scientific papers dealing with the following problems:

- ultrasonic and acoustic measurements;
- wave propagation and vibrations;
- ultrasonic imaging and non-destructive testing; ultrasonic transducers;
- physical acoustics;
- signal processing;
- applications in biology and medicine, etc.

### Publisher

Vilnius Gediminas Technical University

### Journal Scope

This Journal is designed for young researchers, provide them stage and skills towards highest level scientific publications.

Articles are published on the following areas of research:

- environmental protection engineering;
- architecture and urban design;
- aviation technology;
- bioengineering and bioinformatics;
- physics and physical information technology;
- electronics and electrical engineering;
- informatics;
- computer-aided graphics and design;
- mathematics;
- mechanics;
- material engineering;
- industrial engineering and management;
- construction and building engineering systems;
- transport;
- business.

### Publisher

Versmė Publishers

### Journal Scope

The aim of the edition is to show the interdisciplinary fundamental and applied researches carried out in Lithuania on the phenomenon of comprehensive locality, mainly papers from the areas of humanities and social sciences as well as publish some literary sources.

The research areas:

- Humanities (History and Theory of Arts, Philology, History, Ethnology);
- Social Sciences (Sociology);
- Physical Sciences (Geology Geography);
- Biomedical Sciences (Biology).

### Publisher

LCC International University

### Journal Scope

The scope of the academic journal is to invite academia to an open dialog on social, cultural and philosophical topics, to raise new questions, to seek scientifically based answers from historical and contemporary perspective, to examine aspects of personality development in contemporary world, based on liberal arts principles.

Articles published in the journal are based on presentations given in annual multidisciplinary forums.
